

UNIVERSITY RESEARCH PROGRAM

The Raymond Corporation, a Toyota Industries Company

ADVANCING THE SCIENCE OF MATERIAL HANDLING

Through the University Research Program, The Raymond Corporation is seeking proposals that innovate and elevate the material handling industry. Many of the areas that our industry has been involved in include virtual reality/augmented reality, energy infrastructure, Internet of Things (IoT), Industry 4.0, ADAS systems and machine learning. Proposal themes related to the above areas are encouraged, but given the broad nature of material handling other themes are welcome. The Raymond Corporation was created to drive the next generation of approaches and technologies for the entire material handling industry. The industry's end-to-end approach to provide complete solutions to customers that are smarter, more efficient and more effective has fueled this program. The mission of The Raymond

Corporation is to encourage professors and researchers to apply their synergies and collaboration between collegiate research and The Raymond Corporation. Selected proposals will receive financial support of up to \$500,000 for one year, and we anticipate multiple financial support through the University Research Program may be invited to renew the contract for up to three years based on the research outcomes.

ABOUT US:

The Raymond Corporation, a Toyota Industries Company, is a leading global provider of best-in-class material handling products and intelligent intralogistics solutions. Built on principles of innovation and continuous improvement for over 95 years, Raymond's integrated automation, telematics, virtual reality and advanced energy solutions provide ways to optimize operations and bring warehouse and distribution operations to a new level of performance. Raymond's electric forklift trucks are engineered to achieve increased productivity and efficiency and are designed to provide ecological and economic benefits. In partnership with Toyota Advanced Logistics Solutions, Raymond delivers solutions to material handling and logistics markets in North America and globally. Combining operational excellence, award-winning innovation and world-class global customer support, we work together to run better, manage smarter and keep our customers always on.

CONFIDENTIAL AND PROPRIETARY INFORMATION:

Participants shall ensure that no confidential or proprietary information is included in submitted proposals. The Raymond Corporation will treat all information submitted in proposals as non-confidential and non-proprietary. The nature of the URP requires that submitted proposals be reviewed by The Raymond Corporation personnel, including The Raymond Corporation researchers, who will become knowledgeable of the information provided by the university researcher in the project proposal. During the evaluation process, The Raymond Corporation cannot maintain the confidentiality of information set forth in the proposals. Accordingly, The Raymond Corporation does not require, and does not desire, to receive any information that may be deemed confidential by the university researcher or the university.
